The Great Cough and Consumptive Remedy.

robable result. In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry, hack-ing cough will set in, and when you raise any-thing it will be a thick and yellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have hectic fever, cold chills, night sweats, copious expectofever, cold chills, night sweats, copious expectotation, and then great prestration. If you still neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly consumption vid its work, and hurried you away. Priend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of consumption progresses, with more or less rapidity, to a fatal termination. Of all the thousands and millions whom this great Destroyer has gathered to the tomb, every single case began with a cold! If this had been attended to, all might have been well; but, being neglected, under the fatal delusion that it would "wear itself off," it transferred its deadly action to the substance of the lungs, exciting there the formation of tubercles. Another, and another cold added fuel to the flame, until

leaving, by their ulceration, great cavities in the lungs. At this crisis, the disease is very difficult of cure, and oftentimes sets at defiance all human In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolongs his life, and it is there-fore worthy of a trial; but in its incipient or for-mer periods, Consumption is as curable as any other disease, and DR. HALL'S BALSAM FOR THE LUNGS, if taken at this time, will cure it as surely as it is taken! This is strong language, but we can refer you to numberless living witnesses to prove that it is true! And therefore, we earnestly exhort every man, woman and child who has a cough, or is subject to colds, to keep the medicine by you in the house, and whenever you take cold, do not "let it alone" to work mis-shief in your system, but eradicate it thoroughly, and at once, by this powerfully healing compound.

For the Removal and Permanent Cure of all

NERVOUS DISEASES, those Comparits which are caused by an impaired weakened at unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has seen pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovers of the age.

DR. CHRISTIE'S GALVANIC BELT MAGNETIC FLUID,

with the most perfect and certain success in all cas GENERAL DEBILITY, GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various argans and invigorating the entire system. Also in FiTS, CRAMP, PARALYSIS and PALSY. DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDENEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely.

A Derangement of the Nervous System.

A Derangement of the Nervous System. 63- In NERVOUS COMPLAINTS, Drugs and Medicines exercise 'to disears, for they weaken the vital energies of the already exestrated system; while under the strengthening lightence of Galvaniam, as applied by this beautiful and wonderful discovery, the exhausted paired and weakened sufferer is restored to former health, strengthening the strength of the strength of

dissticity and vigor.

The great peculiarity and excellence of Dr. Christie's Galvanic Curatives, consists in the fact that they arrest and cure oscase by our word application, in place of the usual mode of drugging an obsicking the patient, till exhausted Nature sinks hopelous: ander the infliction.

They strengthen the whole system, equalize the circulation

of the blood, promote the secretions, and never do the slighter injury under any circumstances. Since their introduction is the United States, only three years since, more than 75,000 Persons

cluding all nges, classes and conditions, among which were large number of ladies, who are peculiarly subject to Nerv Complaints, have been ENTIRELY AND PERMANENTLY OURED, when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPETSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action the nerves and massles of the stomach afford temperature tief, but which leave the patient in a lower state, and with in jured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of compare this with the effect resulting from the application of the GALVANIC BELT—ake a Dyspeptic sufferer, even is the GALVANIC BELT ... ake a Dyapetic sufferer, even in the worke symptoms of an attack, and simply the the Belt sround the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence such again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSFESIA are FERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO FRADICATE THE DISEASE OF YEARS.

what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about treenty years I had been suffering from Dyspersia. Every year the symptoms became worse, nor could I dohaln permanent relief from any course of medical treatment whatever. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumstism, which for year after year, caused me indescribable anguish. Farther: in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchits, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous syriem was new thoroughly prestrated, and as my Bronchitis became worse, to also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous system. In the whole phasimacopois there seemed to be no remedial sgent which could reach and recuperate my Nervous System; evilaing that I had tried for this purpose had completely faire. At last I was led by my frients to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the spelication of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1845. To say casar asyonism MARY I succe contrate a results of the experiment.
